Case Study Submission

The Case Study Submission allows for Clubs, Class Associations and Discover Sailing Centres to submit an overview of programs or initiatives where they have achieved success. Many Clubs, Class Associations and Discover Sailing Centres achieve success with new and refined programs and initiatives each year and Australian Sailing would love to be able to share these ideas with others to help the entire sailing community to continually improve. This is your opportunity to share what has worked well, your learnings and to help others to achieve the same success. Thank you in advance for taking the time to share. Before Australian Sailing publishes your Case Study we will share with you to ensure we have correctly captured and articulated the initiatives and the learnings.
